"The
DIRECTORY
IS THE COMMON
INTERMEDIARY
BETWEEN
BUYER AND SELLER"

R. L. P. 115

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and

social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Statistical Review

Form of Government—City-manager.

Population—1930 U. S. census, 45,704; including suburbs, 75,000 estimated. Native-born, 97%.

Area—6.9 square miles.

Altitude—12 feet.

Climate—Mean annual temperature, 59 degrees; average annual rainfall, 40 inches.

Parks—1, with 50 acres valued at \$100,000.

Assessed Valuation—Real, \$34,000,000; personal, \$3,400,000.

City's Bonded Debt—\$9,159,900.

Financial—6 banks and trust companies, with total deposits of \$10,309,000 and resources of \$15,565,000.

Post-office Receipts—\$177,000 (last annual report).

Telephones in Service—5,300.

Churches—64, all denominations.

Real Estate—12,568 homes, with about 30.9% owned by occupants.

Industry—75 establishments employing 11,726 workers, paying wages of \$19,000,000 annually, and having products valued at \$47,000,000 annually.

Trade—Retail area has radius of 10 miles and population of 300,000.

Newspapers—1 daily.

Hotels—3, with total of 200 rooms.

Railroads—8: S. A. L., A. C. L., N. & W., Southern, Virginian, Norfolk & Southern, C. & O., and Pennsylvania (also Norfolk & Portsmouth Belt Line).

Amusements—4 theatres, with total seating capacity of 2000 persons.

Hospitals—2, with 130 beds.

Education—20 schools, including 2 high and 2 parochial. Number of pupils in public schools, 9,348; in private, 400. Total number of teachers, 251. Value of all school property, private and public, \$1,500,000.

Volumes in Library—10,000.

City Statistics—Total street mileage, 111.1, with 60.35 miles paved. Miles of electric street railway, 15. Capacity of water works (municipal), 2,000,000,000 gallons; daily average pump, 10,000,000 gallons, with 150 miles of mains, and plant valued at \$3,000,000. Fire department employs 40 men, in 7 station houses. Police department has 47 men, with 2 stations and 13 pieces of motor equipment.

Historical

The city of Portsmouth was founded in 1752 by Colonel William Crawford, a justice of the Norfolk County court. In the original survey the four corners of High and Court streets were dedicated to public purposes—the northeast corner, now occupied by the Hotel Monroe, for a court house; the southeast corner for a market house; the southwest corner for the Trinity Church, and the northwest corner as a site for the county jail. The city grew slowly until 1900, when its population is given as 17,000. In 1910, due partly to natural growth and partly to annexation, the population had increased to 33,000. Today the population of greater Portsmouth is approximately 75,000. At present, within a radius of fifteen miles this section has a population of approximately 400,000.

POINTS OF INTEREST

The historical Dismal Swamp, with Lake Drummond in its midst, is at the door of Portsmouth in Norfolk County. The two together recall to mind "The Lady of the Dismal Swamp," that musical poem written by Thomas Moore in the year 1804. The Dismal Swamp Canal, which has great future possibilities, was undertaken by George Washington (Washington died in 1799), but was not finally completed and opened to traffic until 1826.

In Portsmouth is found the house occupied by the father of Grover Cleveland, when pastor of the First Presbyterian Church in Portsmouth. The site of old Fort Nelson, a historic Revolutionary fortification, is found on the Naval Hospital grounds.

The main building of the Naval Hospital, constructed in 1823, is a splendid example of classical architecture and an ornament to the city.

Trinity Church, originally built in 1762, is the oldest building in the city and one of the oldest in the country, with a continuous record as a parish. Monumental Church is the oldest Methodist church in the south, having been organized over a century ago.

The Roman Catholics have a handsome house of worship on High street. This is one of the most imposing church buildings in the South. The first congregation seems to have been organized about the time of the Revolutionary War, on the present site at the northeast corner of High and Washington streets. The congregation consisted of a few French and Irish families and was first attended by priests from Norfolk.

There are a number of historic residences in the city, the best known of which is possibly the brick mansion on Swimming Point. It is thoroughly authenticated that this house was the birthplace of Commodore Richard Dale.

Amusement and Recreation

The city has a splendid park provided by the Federal Government in the grounds of the Naval Hospital, which, through the courtesy of the commandant, is open to all citizens on Sunday, as well as week days. In addition, the city has provided, and maintains four playgrounds—two for white and two for colored children. A city park has been de-

veloped on Bain's Creek, west of the city. This is one of the most attractive in the South, having playgrounds, athletic fields, drives, walks, rest and club houses. A country club has also been organized and a splendid and commodious club house has been erected. Two golf courses have been developed.

Business Organizations

The city is well represented in this respect. The Chamber of Commerce, the Rotary Club, the Kiwanis Club,

and the Retail Merchants' Association are in a flourishing condition and have energetic memberships.

Commercial and Industrial Advantages

Portsmouth has adequate banking facilities, which are a necessary adjunct to manufacturing concerns, general business and the community at large. The banks of the city have high standings and are in a flourishing condition.

Portsmouth is located on that great body of water, historic Hampton Roads, which, in depth, extent and climatic conditions, is ideal and unexcelled. A circular issued by the National Rivers and Harbors Congress

calls Hampton Roads a "World Port in the Making." It is already conceded, both in natural advantages and business, to be one of the greatest ports in the United States. It can be made one of the greatest in the world. Ships of all nations come into this port for cargo or for bunker coal, or for a harbor of refuge in case of violent storms. The harbor is always free from ice. It is the best natural harbor on the Atlantic coast, the least congested, and the most ac-

Belt Line Railroad Terminal

cessible. From Pinners Point to Pig Point are many miles of undeveloped water front which, in time, will be lined with piers and ships. Portsmouth may thus take care of the commercial overflow from other cities of the United States for years to come, so Hampton Roads is a most valuable asset not only to Tidewater Virginia, but to the entire state and nation.

In the way of railway transportation Portsmouth has four great trunk lines terminating within its limits—the Pennsylvania, the Southern, the Atlantic Coast Line and the Seaboard Air Line. The general offices of the Seaboard Air Line and its shops are located in the city. In addition, all roads are connected with the city by a great belt line which gives unexcelled advantages for manufacturing and wholesale business. This belt line has a trackage of thirty-six miles, and by its use, the Norfolk and Western, the Chesapeake and Ohio, the Virginian and the Norfolk Southern are directly connected with all manufacturing concerns situated in the vicinity. This road enables industries to receive their raw materials more readily, to transport their products to destination without change of cars, and has the practical effect of bringing every railroad in the country directly to the doors of all estab-

lishments situated on the belt line. The industrial growth of Portsmouth has been gradual and the industries that border the Portsmouth Belt Line Railroad are substantial in every way. The Chamber of Commerce is confident that no city has more to offer from an industrial and commercial standpoint than has Portsmouth, when it is considered that many suitable sites are obtainable along the belt line or immediately adjacent to it. Besides the railroads the city is the center of a great system of radiating highways running to North Carolina and to the west and southwest.

Portsmouth has excellent steamship lines running to all parts of the coast, and by means of lighter service connects with various trans-Atlantic and Pacific lines running out of its sister city, Norfolk. The principal domestic lines are the Baltimore Steam Packet Company, Bennett's North Carolina Line, the Buxton Line, Inc., Elizabeth City Boat Line, Inland Steamship Company, Old Dominion Transportation Company and the Chesapeake Steamship Company. Portsmouth is approximately 320 miles south of New York City, 175 miles south of Baltimore, and within two hours' steaming time from the Virginia Capes, the gateway to Europe.

Industries

One of the great industries of the South in the past has been the Portsmouth Navy Yard, which is situated on the southern border of the city, within the city limits. This yard was originally built by the British in the Eighteenth Century, and was known as Gosport. After its abandonment by the British government, it was operated by private parties for some years and then purchased by the United States in 1801. At the beginning of the Civil War, when the city of Portsmouth was occupied by the Confederate forces early in 1861, the yard was burned by the Federal troops on evacuation. It was, however, rebuilt by the Confederates and held and used by them until Portsmouth was re-occupied by the Federal forces in 1862. From this date on it has been occupied by the Federal Government. It is interesting to note that at different times five different flags have flown from the flag pole over this yard—first the British; then the Colonial; then the flag of Virginia; then the Confederate flag, and finally the United States flag. To the yard in recent years has been added a great naval magazine and a series of splendid and commodious buildings for the forces of the United

States Marine Corps, which are stationed in Portsmouth. The yard is now the best equipped and the most complete in the country, and contains one of the two drydocks on the Atlantic Coast, which is capable of docking a vessel of the size of the "Leviathan." The navy yard covers approximately 450 acres of ground, and all things considered, is the most important Federal yard in the country.

At Pig Point, near Portsmouth, is a great ordnance depot containing many million dollars' worth of ordnance stores, and connected by road and railroad with Portsmouth. This depot is provided with a great wharf over which materials and military supplies may be received and shipped.

Some of Portsmouth's principal industries and products are as follows:

- Car wheels
- Shipbuilding
- Fertilizer
- Agriculture
- Creosoting
- Veneer mills
- Hosiery
- Dyeing
- Railroad shops
- Lumber
- Government operations

Coffee-roasting
Cotton mills
Sea foods
Excelsior
Truck packages
Machine shops
Oil
Copper smelting
Cotton tie and bagging
Paper boxes

Portsmouth is in the center of the greatest peanut-growing section in the world. It is also located in the greatest trucking section of Virginia and probably one of the greatest in the country. It is near to and connected by direct roads with the sources of those great raw materials so essential in industry, such as cotton, lumber and coal.

The climate of the city makes it particularly advantageous for industrial and commercial interests to establish themselves in this locality. The average temperature is about 60 degrees for the year; the mean temperature for the coldest month is about 41 degrees, and for the hottest month, 79 degrees. As already pointed out, violent storms are unknown, the harbor is ice-free, and outdoor work is possible at all seasons of the year. Those who must spend the summers in the city have access to nearby beaches over splendid automobile roads and electric railways, which offer a ready and economic means of relief for week-end trips during the hot weather.

Municipal Features

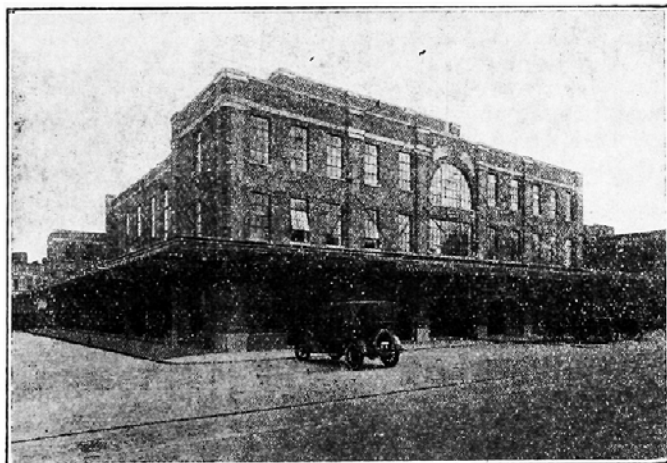

The city owns a splendid water supply system furnishing an abundance of water, which is considered exceptionally good for use in boilers and has been pronounced by eminent chemists as unexcelled for drinking purposes. This water is obtained from Lake Kilby, near Suffolk, and is pumped to reservoirs in Portsmouth for distribution. Lake Cahoon is available as a reserve supply and is connected with Lake Kilby by a water main through which water may be brought by electric pumps located near Lake Cahoon. The water supply is sufficient for a city of 150,000 as it now stands, and could be extended still further by increasing the height of the dams at Lake Kilby and Lake Cahoon. Under a recent decision of the Council, water will be supplied to factories at as low a rate as is given by any other water department in this locality.

The city has an excellent engineering department and the work done by this department speaks for itself in

the way of many miles of paving, curbing and gutters, sewers and public buildings added to the city in the last two years.

The Department of Public Welfare is second to none in comparison with cities of the same size of Portsmouth. The health of the community has been maintained in excellent condition, and contagious and infectious diseases reduced to a minimum. Through the various activities of this department, our food products, especially milk, are carefully inspected, and the milk ordinance of the City of Portsmouth is a model which has been copied by many other cities. The department maintains free clinics, and through its system of visiting nurses, instructs the citizens in the methods of avoiding disease, in caring for the sick, and in maintaining health.

The public schools of Portsmouth are of a particularly high standing and under the present system management are a source of pride to the

City Market

entire city. The grammar schools give an excellent grounding in the essentials, and in the high school this is carried forward, and the students are given a chance to specialize in various courses. A graduate of the high school may be admitted directly to college or the university without examination.

The Police and Fire Departments of Portsmouth are efficient and well organized. The Fire Department is completely motorized and the efficiency of its work is recognized by all fire underwriters. The Police Depart-

ment, during the past year, has made a new record in law enforcement and is steadily improving. A new system for the identification of criminals has been installed recently.

Portsmouth has the city manager and council form of government, consisting of a small council of seven men elected by the people. This council, in turn, elects a city manager, who is the administrative and executive head of the city.

A magnificent, new and modern city market has recently been opened.

Public Institutions, Churches, Etc.

In the way of hospitals, the city has the magnificent naval establishment in the Hospital Park, which is the greatest naval hospital in the country and is available, in emergencies, for citizens. The commandant of the hospital has always cooperated with the community in every way, and the presence of the hospital is an asset. In addition to the Naval Hospital, the city has the advantage of the King's Daughters Hospital and the Parrish Memorial Hospital, both splendid and up-to-date institutions. Portsmouth has a public library, Y. M. C. A., Home for the Aged, City Home, an orphan asy-

lum, Y. W. C. A., Catholic Club, Colored Old Folks' Home, Colored Orphans' Home, and a colored day nursery.

The city has approximately sixty-four churches of various denominations, with property valued at approximately \$1,500,000. Both white and colored people are well provided with places of worship. The following are the principal denominations represented: Baptist, Methodist, Roman Catholic, Protestant Episcopal, Presbyterian, Lutheran, Christian, Congregational, Friends, Seventh Day Adventist, Church of God, Holiness bodies, Salvation Army and Jewish.

General

Portsmouth is:

- Large distributor of seafoods.
- Large peanut center.
- Large distributor of vegetables.
- The Central Atlantic Port—One of America's finest gateways to the seven seas.
- On Hampton Roads—first American port in export tonnage.
- An important lumber market.
- One of the largest fertilizer centers.
- Second port in waterborne tonnage.
- Second hardwood lumber port.
- One of the closest to the raw material sources of the world.
- Operated efficiently as a big industrial enterprise under a city-manager form of government.
- Rapidly becoming one of the most important of American ports.
- Building up a great business through its port by giving dispatch and economical service.
- A year-'round resort city.
- A good home city.
- The place for your new industry.
- The city on the Atlantic Seaboard having a practical belt line railroad.
- Great coffee center.

Portsmouth Has:

- The world's finest harbor, free from ice the year 'round.
- Eight trunk line railroads.
- One of the most complete belt line systems in the world.
- Unexcelled distribution advantages.
- Splendidly equipped shipbuilding and repair yards.
- One of the largest drydocks in the world.
- Largest and finest of America's naval hospitals.
- Best equipped naval repair yard in the country.
- A fine city-manager form of government.
- A harbor capable of accommodating many thousands of ships.
- A harbor with a tidal range of only two and one-half feet.
- A harbor free from ice and dangerous currents—a safe harbor.
- A channel of forty-foot depth to the sea—eighteen miles distant.
- Assembling and distributing facilities for the making of an excellent jobbing center.
- Terminal yard track capacity of 35,000 cars.

An excellent and co-operative labor situation.

In closing it may be stated that Portsmouth is the third city of the state of Virginia. Its location on the west side of the Elizabeth River gives it a position admirably fitted to make it a great city. Being situated on the mainland, its waterfront may be

reached without crossing rivers or drawbridges, and it is the natural terminus of all roads reaching Hampton Roads on the south side of the James River. Its success seems assured and it cordially invites those interested in industry, general business or commerce to visit it and to ascertain first-hand its wonderful advantages.

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶ It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶ It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶ The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶ Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

THE CITY DIRECTORY

**represents the City and its
institutions in every corner
of these United States**

ARE YOU PROPERLY REPRESENTED IN IT?

**The Classified portion
catalogues the professions
and goods handled here**

**ARE YOU LISTED UNDER YOUR PROPER HEADING
SO THE PROSPECTIVE BUYER CAN FIND YOU?**

“Think It Over”

The Alphabetical Section---

A guide to the population, its activities and addresses.

The Buyers' Guide---

To the commercial, professional and industrial interests.

The Classified Section---

A guide to the many business interests, arranged under typical headings.

The Guide Post to the City.

The Householders' Guide---

A guide to the streets and avenues and the residents and tenants thereon.

Is Never Further Removed From You Than the Nearest City Directory

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a 'privilege card' will be sent you upon request to

PORTSMOUTH DIRECTORY OF HOUSEHOLDERS (1931)

1037

HILL'S**PORTSMOUTH****Directory of Householders, Occupants of
Office Buildings and Other Business Places**

INCLUDING

A Complete Street and Avenue Guide

AND LIST OF

STREET CAR and BUS ROUTES**1931**

Copyright, 1931, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the numbers denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

*** between two intersecting streets designate there are no houses between them.

(c) denotes colored.

PORTSMOUTH STREET RAILWAY ROUTES

MORE GOODS
ARE BOUGHT AND SOLD
THROUGH THE
CLASSIFIED BUSINESS LISTS
OF THE
DIRECTORY
THAN
ANY OTHER MEDIUM
ON EARTH

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶ It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶ It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶ The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶ Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

Population of U. S. Cities of 30,000 Inhabitants or More in 1928

(United States Census Bureau's estimate as of July 1, 1928, excepting those indicated by asterisk (*) which are 1928 estimates from other sources.)

When You Want to Know:

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.**

A Lasting Advertisement

**Insuring Maximum Coverage at Minimum
Cost Is Now Available**

City Directory Advertising lives as long as the book is current. It is readily at hand and can, through cross indexing of proper representation, be made easy to find and fully informative. Any business-man, desirous of effectively registering a service or product, in such a manner as will form a permanent advertisement, owes it to himself and his business to be thoroughly informed on City Directory Advertising.

Your City Directory is not alone a local medium. By a system of distribution through nearly 500 City Directory Libraries, your advertisement takes on a national aspect. Send for descriptive Library Folder and Privilege Card.

HILL DIRECTORY CO.

"Most Portsmouth News For Portsmouth People"

Portsmouth's Only Daily Newspaper

The Portsmouth Star

Goes into 90% of the reading homes of Portsmouth and is read carefully by the substantial Portsmouth people.

Full Associated Press Service by leased wire. N.E.A. and New York World Feature Service. Best Magazine Features.

**If You Want Local News
You Must Read The Star**

A paper every afternoon and the big Sunday edition, including four-page Comic Section, Etc.

Advertising Manager

PORTSMOUTH

on Hampton Roads

The Industrial City of Tidewater Virginia offers to industry of many sorts the most ideal tie-up of raw materials, productive labor, climatic and geographical advantages and transportation facilities on the middle Atlantic coast.

Industrialists seeking location for permanent enjoyment of prosperity under increasingly severe conditions of competition are invited to study Portsmouth's situation. Write for copy of Portsmouth Industrial Survey by Engineering Extension Division Virginia Polytechnic Institute.
